Github

INTERSHIP

Frontend Developer Intern

Mind Coders, Indore, M.P.

📅 10/ 2023 - Present

Stock Market Website

- **Tech Stack** :- Utilize HTML, CSS, JavaScript and Bootstrap for Responsive.
- **Link** :- <https://riocap.in/>

Company Website - Mind Coders

- **Tech Stack** :- Utilize HTML, CSS, JavaScript and Bootstrap for Responsive.
- **Link** :- <https://www.mindcoders.in/>

CRM (Customer Relationship Management)

As a Frontend Developer working on a CRM project. I use React Bootstrap to make the interface look good and connect it with the backend (MongoDB, Express, and Node.js) to make everything work smoothly. My goal is to create a user-friendly and visually appealing CRM application.

- **APIs Integration, Real time OTP varification**
- **Authentication** :- Use JWT Tokens for user authentication
- **Features** :- User Dashboard, Lead tracking and Distribution, Team management, Search and Filtering.
- **Tech Stack** :- Utilize React, Bootstrap in frontend.

PROJECTS

e - Commerce Website

Built an e-commerce website with API integration involves creating a user-friendly platform that connects to various e-commerce APIs for real-time data on products, and inventory.

- Design the home page in React, utilizing Bootstrap to display product data in card format, categorizing products.
- **Authentication** :- Implement user login and signup APIs.
- **Product Management** :- Create APIs for adding, deleting, updating, and searching products.
- **Tech Stack** :- Utilize React with Bootstrap for the frontend, Node.js and Express.js for the backend, and MongoDB for data storage.

COURSE

- **Full Stack Development - Physics Wallah**
